

# Supporter Sweep Links

**BHAKARI is a multi-year program to increase long-term food security and reduce disaster risks. By innovating strategies with local communities, BHAKARI is making a real impact by building resilience in vulnerable populations. Don't miss this inspiring and informative 3 min video of our work here!**

**Meet Janak Adhikari, a coordinator at a training center in Nepal where farmers learn to grow healthier crops. Gain insight into how Mercy Corps Ventures is driving climate resilience in Nepal and other markets through innovative adaptive agriculture solutions. Don't miss out on our 1-minute story by clicking here!**

**Discover the inspiring story (2 min) of how Mercy Corps has supported the marginalized Raji community in western Nepal. Witness as they boldly transitioned from traditional fishing to agricultural practices and see how our unique climate-adaptation programs have made a difference to this community.**

**Learn more about Mercy Corps' impactful work in Nepal through our interactive matching game! Our work ranges from improving access to clean water to promoting gender equality. Put your memory to the test and discover the impact of our work in Nepal!**

# IMPACT SPOTLIGHT: KARNALI, NEPAL

Mercy Corps Nepal is supporting more than 3,000 vulnerable households with food and other immediate needs in the Karnali Region of Nepal through the BHAKARI program. Individuals registered with the BHAKARI program are able to buy nutritious food and other essentials like warm clothing and household supplies from local vendors with Value Vouchers (pictured here), a form of digital cash that streamlines the safe and secure transfer of assistance to program participants.
